

# JAJA

## - FOOD -

Jaja is a typical french styled wine bar. Our food consists of small and medium plates meant to accompany the wine. Due to the limitations of our size the dishes will arrive at your table in the order the kitchen can produce them. We work with fresh and high quality products, organic and local whenever possible, and everything we can is made in house. For the best possible experience we suggest that the whole table choose a few plates and share them.
